

Vinícius de Matos Silva

Full-Stack Developer & Data Analyst

vmsilvacontato@gmail.com · +55 (11) 95121-2674 · São Carlos, SP, Brazil · linkedin.com/in/viniciusmsilva

PROFESSIONAL SUMMARY

Full-stack developer and data analyst with 3+ years of experience building distributed systems and transforming complex datasets into actionable business insights. Proficient in Clojure, Python, and modern data tooling (Tableau, Power BI, SQL). Passionate about clean architecture, data-driven decision-making, and delivering measurable impact across technical and analytical roles.

EXPERIENCE

Full-Stack Developer

CSDBr

Jan 2025 – Present · São Paulo, Brazil

- Build and maintain full-stack applications using Clojure, ClojureScript, and Python.
- Design and optimize PostgreSQL schemas and queries for high-throughput workloads.
- Implement event-driven pipelines with Apache Kafka for real-time distributed data processing.
- Manage scalable NoSQL datastores using Apache Cassandra.
- Collaborate cross-functionally to deliver seamless backend-frontend integrations.

International Media Analyst

Media.Monks Brazil

May 2022 – Jan 2025 · São Paulo, Brazil

- Performed end-to-end data analysis to optimize media strategies across 10+ client accounts.
- Built interactive Tableau dashboards adopted by stakeholders to track campaign KPIs.
- Produced weekly and monthly reports with data-backed recommendations, reducing decision time by 30%.
- Identified performance trends and anomalies, enabling proactive budget reallocations.

EDUCATION

São Paulo Federal Institute of Education, Science & Technology (IFSP)

Bachelor's Degree · Systems Analysis and Development

São Paulo Federal Institute of Education, Science & Technology (IFSP)

High School with Technical Training · Informatics

TECHNICAL SKILLS

Languages

Python · Clojure · ClojureScript · Java · JavaScript · SQL · C++ · C#

Data & Analytics

Tableau · Power BI · Statistical Analysis · Data Visualization · Pandas

Databases

PostgreSQL · Apache Cassandra · SQL query optimization

Infrastructure

Apache Kafka · Distributed systems · Event-driven architecture
